PROFILE

- Software Developer focused on frontend and full-stack web development with React, TypeScript, and .NET.
- Experience delivering production features, integrating APIs, and collaboration in Agile teams across web applications and cloud environments (Azure/AWS).
- Strong focus on UI/UX, performance, and building scalable, maintainable frontend systems.
- Fluent in English, Romanian, and Russian with experience in customer-facing and technical roles.

TECHNICAL SKILLS

- **Frontend:** React, TypeScript, JavaScript, Tailwind CSS, Vite, Webflow, REST APIs, Responsive Design.
- **Backend & Cloud:** C#, .NET 8, ASP.NET Core Web API, Blazor, SQL, Azure, AWS, Google Cloud, Docker, GitHub Actions.
- **UI/UX:** Component Architecture, Performance Optimization, Accessibility (a11y), Core Web Vitals.
- **Methodologies:** Git, Agile/Scrum, TDD, SOLID Principles.

EDUCATION

Technological University Dublin

BSc (Hons) in Computing with Software Development (Level 8)

Classification: First Class Honours (1:1) | Graduated: Oct 2025

Tallaght, IE

Sept 2022 – Aug 2025

Bray Institute of Further Education

Computer Networking and Cyber Security (Level 6)

Classification: Distinction

Bray, IE

Sept 2021 – Aug 2022

Bray Institute of Further Education

Computer Science (Level 5)

Classification: Distinction

Bray, IE

Sept 2020 – Aug 2021

WORK EXPERIENCE

Compire

Chisinau, Republic of Moldova

Frontend Developer

Oct 2024 – Feb 2026

- Developed interactive frontend features using React.js for a startup web application, improving responsiveness and user experience across desktop and mobile devices.
- Implemented API integrations using Express.js, AWS Lambda, and SendGrid to support application workflows and notifications.
- Collaborated with designers and developers in an Agile environment to deliver features and consistent UI quality.

DWSmart LLC

Chisinau, Republic of Moldova

Dispatcher

Jun 2024 – Sept 2024

- Coordinated daily logistics operations, optimizing routes and managing client communications; maintained 98% on-time delivery rate and ensured revenue targets of \$1.80+/mile.
- Maintained consistent service quality while multitasking in a fast-paced environment handling 2–3 trucks daily.

ItSpot

Tallaght, Ireland

Frontend Webflow Developer

Mar 2024 – Sept 2024

- Designed and launched a responsive marketing site using Webflow, improving client engagement by 28%.
- Improved mobile performance (4.2s to 2.6s) via CMS restructure and lazy-loading and trained staff on updates.

Technological University Dublin

Tallaght, Ireland

On Campus Internship

Jun 2023 – Sept 2023

- Facilitated faculty research projects by authoring technical documentation and implementing data-tracking templates; cut report turnaround time by 25%.
- Streamlined reporting templates and programmed CSV exports that cut weekly report preparation time by 66%.

- Guided staff and management to prioritise IT infrastructure and hardware improvements, enhancing uptime and user productivity.
- Coordinated infrastructure maintenance and internal security/compliance practices.

PROJECTS

Odys Global

(React.js, JavaScript, REST APIs)

Nov 2025 – Apr 2026

- Collaborated to the frontend development of a premium aged-domain marketplace platform focused on usability and performance.
- Built responsive UI components and integrated marketplace listings using REST APIs.
- Improved page responsiveness and optimized rendering behavior for a smoother user experience across devices.

Assembly Endgame

(React 18, Vite, JavaScript, Canvas Confetti, CSS3)

Nov 2025 – Jan 2026

- Built an interactive hangman-style game using React state-driven UI, where players guess words through dynamic letter-reveal mechanics and progressive difficulty where each wrong guess eliminates a language from the stack.
- Implemented keyboard input handling, real-time game state updates, win/lose conditions, and modular UI components for word display, keyboard interaction, and game status.
- Added visual feedback systems including animations and Canvas Confetti celebration effects on win conditions.

CivPlayers Civ3 League

(React, TypeScript, Vite, Tailwind CSS, Google Sheets API, GitHub Pages)

Sept 2025 – Oct 2025

- Built and deployed a league web app with leaderboards, events, and admin tooling; 100% uptime since launch.
- Implemented an ELO-based team balancing algorithm with <100ms computation time for 8-player inputs.
- Set up CI/CD with GitHub Actions and social share metadata; boosted external link engagement by 45%.
- Prepared an admin panel for non-technical users with JSON export; reduced update time by 80%.

BreachExplorer

(C#, Blazor WebAssembly, ASP.NET Core Web API, HIBP API, LeakCheck, GitHub Actions, Render) Oct 2024 – Dec 2024

- Built and deployed a Blazor WebAssembly SPA that visualizes email breach statistics using data from HIBP and LeakCheck, improving client-side performance by ~35%.
- Developed an ASP.NET Core proxy API (deployed on Render) to bypass CORS restrictions and aggregate breach data from multiple sources, enabling a fully free-tier architecture without reliance on paid API subscriptions.
- Implemented an email breach-checking workflow combining LeakCheck source discovery with HIBP enrichment, providing users with detailed breach context and remediation guidance.

INTERESTS AND ACHIEVEMENTS

- Continuous learning:
 - Coursework and practical experience in web development, testing, cloud and systems engineering.
- Certifications:
 - FreeCodeCamp Responsive Web Design (2026).
 - FreeCodeCamp Legacy Responsive Web Design (2026).
 - FreeCodeCamp JavaScript Developer (2026).
 - 2024 Red Hat Academy - Program Learner.
 - AWS Academy Graduate - AWS Academy Cloud Foundations.
 - VMware Cloud and Virtualization Concepts.
 - VMware Data Centre Virtualization Core Technical Skills CTA-DCV.
- Hackathon Participation:
 - Ethicon Hackathon (2024).
 - RAD Hackathon (2024).
 - Health Hackathon (2024).
- Content Creation:
 - Reached over 1 million views.
 - Generated over 15,000 hours of watch-time becoming an Official YouTube partner.
- Sports:
 - Five-time Taekwondo champion in Republic of Moldova, Ukraine, and Bulgaria.
